LIV Golf Case Study

Integrated Security Operations

LIV Golf Case Study

Foresite partnered with LIV Golf to deploy Google SecOps through Catalyst Bridge, delivering 24/7 operational coverage, Mandiant threat intelligence, and a unified security operation built to scale with a fast-growing global sports league.

The Challenge

As a rapidly growing, global professional golf league, LIV Golf required scalable, cloud-native security that protected vast amounts of fan and corporate data. It needed 24/7 operational coverage and immediate response capability, integrating complex data sources without significant infrastructure overhead. The organization sought a proactive defense that could scale instantly with international events.

The Solution

Foresite deployed a strategic, multi-layered defense to ensure that LIV Golf had operational vigilance backed by world-class threat intelligence.

- Catalyst Bridge Service: 24/7/365 SOC monitoring, platform management, and expert services integrating Google SecOps and Mandiant expertise into a single, cohesive security operation.
- Google SecOps: Powerful security analytics, automation, and a unified data plane.
- Mandiant Threat Defense: Elite, world-renowned threat intelligence and specialized Incident Response (IR) services for the most critical threats.

The Outcome

With the successful integration of the Google SecOps platform and Mandiant's elite expertise, Foresite's Catalyst Bridge model provided continuous operational coverage for LIV Golf:

- Enterprise-grade security posture
- Continuous operational coverage
- Optimized technology investment
- Swift and effective incident resolution
- Strategic guidance aligned with key business objectives
- Unified security visibility from a wide array of telemetry sources

About LIV Golf

LIV Golf is a global professional golf league that has quickly established itself as a major player in the world of sports. With a unique format and a roster of world-class players, LIV Golf has garnered significant attention and a rapidly growing fanbase.
