Foresite Virtual CISO (vCISO)

Lead With Confidence—Without the Full-Time Headcount

Foresite vCISO gives you the strategic guidance, policy oversight, and board-ready insight you need—without the headcount. We align security with business goals, drive maturity, and prepare your organization for audits, risk, and change—powered by Catalyst and led by certified experts.

Why vCISO Services Matter

Today's CISOs must do more than manage tools—they must:

- Align security with business and compliance priorities
- Translate threats into board-level decisions
- Guide investments based on measurable risk
- Lead with confidence, without burning internal resources

Foresite embeds leadership at the level you need—without adding headcount or noise.

What vCISO Services Deliver

Capabilities designed to drive strategy, readiness, and risk alignment.

Security Strategy & Roadmap

Align security with business goals and maturity models

Framework Mapping & Readiness

Expert prep for NIST, ISO 27001, SOC 2, HIPAA, PCI, CMMC

Policy Development & Governance

Custom policies, review cycles, and governance models

Executive & Board Reporting

KPIs, dashboards, and risk metrics your leadership understands

Risk & Threat Oversight

Prioritized actions mapped to risk appetite and threat exposure

Audit Support

End-to-end support for internal and third-party reviews

Delivery Models

vCISO Built for Your Business.

PART-TIME vCISO

Weekly engagement with roadmap execution and leadership sync

PROJECT-BASED vCISO

Targeted delivery for readiness, architecture, or remediation goals

RETAINER-BASED vCISO

Ongoing advisory with quarterly reviews, strategy, and board alignment

About Our vCISOs

Foresite vCISOs are seasoned security leaders who bring a blend of strategic insight, technical expertise, and regulatory experience to every engagement.

They guide security programs with precision—whether leading compliance initiatives, maturing enterprise risk posture, or delivering board-ready reporting.
