

# HELLO! WE ARE YOUR SECURITY PARTNER

## FLEXIBLE SOLUTIONS

### SIEM

ProVision provides hosted log management, correlation, analysis, monitoring, alerting & reporting.

### INCIDENT RESPONSE

Enable organizations to be prepared for the unknown as well as the known for identifying a security incident immediately as it occurs.

### DEVICE MANAGEMENT

Provides release, device incident, problem & change management on security platforms.

### PATCH MANAGEMENT

Patch all devices across your network while optimizing bandwidth.

### THREAT INTELLIGENCE

Provides release, device incident, problem & change management on security platforms. Indirect monitoring for Dark Web and 3rd Party Breaches, protecting beyond the firewall.

### COMPLIANCE SOLUTIONS

Gap assessments, certified audits/attestations (PCI, HIPAA, SOX, NIST, etc.), remediation and QSAs. \$250K guarantee to cover fines or penalties in the event of a breach (with Dark Web service).

### BREACH RESPONSE

24/7 Hotline for Legal, Forensic, Regulatory, and Crisis Management with Cyber Insurance coverage.

### BREACH SIMULATION

Red Team vs Blue Team combination.

### VULNERABILITY MANAGEMENT

Runs scans for clients to identify exposures & prioritize patching.

### SOCIAL ENGINEERING

Email or telephone phishing, (physical access attempts) using a ruse to gain credentials or access Integrated Cyber Insurance.

### WEB APPLICATION TESTING

To check for cross-site scripting, unsecured portals, clear text in databases, etc.

### PENETRATION TESTING

Ethically exploit and gain access to functionality/data.
