

Log Monitoring, Analysis, Threat Intelligence, & Alert Management

Enterprises can generate millions of log alerts everyday making the recognition and analysis of meaningful alerts in real-time a complicated, resource-consuming challenge. Today, security teams are struggling to stay focused on managing resource bandwidth, finding security skill-sets, and simply keeping the lights on.

But there's a solution that can put you in control. Foresite security monitoring solutions managed by our team of certified security analysts offer the focus and expertise required to meet your objectives 24/7/365. That means peace of mind, and the time and resources needed to concentrate on keeping up with strategic innovative business demands.

SECURITY MONITORING & ALERTING SERVICES

Powerful Delivery Architecture

Foresite solutions are products of industry veterans responsible for building what are now some of today's leading worldwide service delivery platforms. Our team has deep insight and proven success into the complexities and requirements of delivering managed security services. We are keenly focused on the end user experience, and we take a visionary approach when it comes to staying ahead of anticipated growth and demand. Our proprietary next-generation management platform for all Foresite Security Managed Service Solutions, ProVision, not only meets today's needs but is flexible and powerful enough to anticipate tomorrow's demands, keeping you in control.
