Reduce Your Cyber Premiums and Bolster Your Security and Compliance with Foresite Integrated Risk Management for SLED

How **FIRM** Helps

State, Local and Educational (SLED) Organizations have been a primary target for cyber-attacks — especially for ransomware. Hackers know that these organizations lack cybersecurity plans and resources and are more vulnerable to attacks than other organizations. With attacks on the rise, cyber insurance options have become scarce and very expensive. How can SLED organizations prepare for attacks with limited budgets?

FIRM provides **automated risk assessments** tailored to an organization's compliance needs. Regardless of where you are on your security journey, FIRM helps to quickly identify the compliance gaps to build a strong cybersecurity plan to help improve your organizations overall security posture.

Features:

⌕ **Contextual custom impact & threat score**
- Industry vertical threats
- Recent similar attacks (global and local)
- Security industry intelligence

◷ **Spend less time on multi-compliance assessments**
- Covers 200 compliance models instantly.

🔒 **Holistic Security Integration**
- ProVision integration for improved alerting context and security task & plan prioritization.

👤 **Eliminate point-in-time assessments**
- Continuous security improvement tracking to show security progress & maturity to executives, auditors, and insurers.

🛡 **Avoid expensive consulting costs with automated policy review and guidance**
- Automatic assessment of your policies.
- Discover & Repair policy gaps in accordance with your desired compliance framework.
